Dear Parents and/or Guardians,

While the start of the school year looks a little different for everyone, I wanted to share with you some good news that schools nationwide received last week. The USDA extended a waiver that allows schools to serve **free breakfast and lunch to ALL students, through 12/31/20**. We are thrilled with this news as it means that we will be able to provide all Winthrop Public School students with nutritious and nourishing food for free that will support them, both in school and at home.

What this means for your family and for Winthrop Public Schools?

- All children, ages 0-18, are eligible to receive a healthy breakfast and lunch every school day, at no cost. This option is available for students during remote learning and for students during in-person learning time.
- You may access meals for your children who are remote learners by picking up meals at designated sites in Winthrop (WHS, A.T Cummings School, Winthrop Landing)
- Allow the school to provide your children with meals will save you time and money as we handle all of the preparation and at this point in the school year through December 31, 2020, **the meals are free for ALL students**.

Our school lunch program allows the Winthrop Public Schools to provide the most nourishing and appetizing meals possible for your children. When your children access school meals, federal funds are in turn provided to the district. The more meals we serve, the more funding we receive and in turn allows us to provide a wider variety of food choice and expand our innovative practices (new recipes, frozen take home meals, etc.). If your children have never participated in school meals, please consider trying the program this year!

FREQUENTLY ASKED QUESTIONS

How will the cost of meals change after December 31, 2020?

The Massachusetts Department of Elementary and Secondary Education has requested that the USDA extend free meals for all students for the **entire** school year. However, as of now, the

USDA has only allowed this through December 31. Therefore, families should still submit a household application to determine eligibility for free and reduced priced school meals for January 1, 2021. Completing the Form will also allow for eligibility determination for any additional benefits as well as ensure a seamless transition when schools move back to a fee-based school lunch program in January 202 should the state waiver end on December 31, 2020.

Important additional information regarding the school lunch program and benefits:

We strongly encourage families to apply for SNAP benefits. SNAP provides monthly cash benefits (on an EBT card) to purchase groceries for eligible families. To apply for SNAP, visit www.startwithsnap.org

or call the Project Bread Food Source Hotline at 1-800-645-8333. If you are unsure whether your family is eligible, the Food Source Hotline can assist you with eligibility questions. Families approved for SNAP are directly eligible to receive free meals at school and do not need to fill out an application for free and reduced priced meals.
