GENERAL REPORTS
Sub-committee Report
Superintendent Contract Sub-committee
The Superintendent Contract Sub-committee met on January 16, 2018. Members present were Mr. Capobianco, Mr. Martucci, and Ms. Powell. Attorney Paul Hodnett was also present. The committee met in Executive Session.

Superintendent’s Report
Regarding the playgrounds, weekly inspections are being conducted. The school committee was provided with a copy of a sample checklist. Nancy White, the state inspector, met with principal Heraty, as well as Terry Delehanty to go through the report one more time. The WPG slide was under warranty and is ordered. ATC needs more TLC and restoration. Nancy White is coming out in February to go over some of the plans and replacements. WE will look at the cost associated with that and we will review funding. Mrs. Howard has had several conversations with Chief Delehanty and Sean Driscoll. They are looking at the beginning stages of funding, and safety grants as well. The superintendent is hoping to have a better picture in early February.

Mrs. Howard continues to conduct budget meetings with each building principal, looking at staffing, class size, contracts, materials, supplies and curriculum. She is also meeting with the facilities department and the Athletic Director. It is recommended to schedule a budget sub-committee meeting.

A draft facilities manual is in the works, which will include a field maintenance schedule and a rental schedule. We should have a draft soon to present to the school committee. Mr. Serino is planning our schedules for spring ports as if students will be ready to play on the field and track, and lacrosse. We do understand that we may have to play on other fields.

Mrs. Howard attended the Football banquet at Winthrop Lodge of Elks. It was very well attended. The awards very impressive. The football team is a very classy group of kids, who were very patient with the process of Miller Field. Mr. Driscoll did a great job.

The Superintendent reported there was difficulty with the Wi-Fi at the William P. Gorman Fort Banks School and the Arthur T. Cummings School. We were down for a couple of weeks. It is paralyzing for a public school who uses Wi-Fi 24/7. Mrs. Howard is happy to report that it is up and running. The Town Council has approved a networking project that will improve the infrastructure. Once that is completed we believe the infrastructure will handle the level of technology that we use every day. The Arthur T. Cummings School is the hub. The plan is to have electricians come in during the February vacation week.

MASC is willing to come out and do training for new school committee members. Mrs. Howard will provide the chair with the name and contact information.

The Superintendent made a recommendation to add an additional school committee meeting in February, as of right now there is only one meeting scheduled.

Currently, there is no maintenance person for Miller Field. The field is currently not in our possession. There is very specific training with maintaining the field. There is a mule and machines to be utilized. The field committee has informed us that training will be provided. Maintenance of this project is very important to us.
