Couse Description and Expectations

The English Language Learner Class is a year-long course. It has been designed to introduce students to the basic structures and vocabulary of the English language through the skills of reading, writing, listening and speaking in order to begin to function proficiently in content-area curriculum.

The acquisition of language skills occurs as learners use English effectively in a variety of social and academic settings. This means that English Language Learners (ELLs) need to actively participate in all activities that involve the use of the English language. Additionally, students will learn strategies in order to advance their reading, listening, and pronunciation skills. They will expand oral comprehensibility and write complete sentences, a standard paragraph, and short content-based essays. They will utilize level-appropriate conventions of grammar and punctuation with a minimum of errors.

Goals:

- ✚ Students will use English to interact in the classroom, and to communicate in socially and culturally appropriate ways.
- ✚ Students will interact with spoken and written English for personal expression and enjoyment.
- ✚ Students will use appropriate learning strategies to construct and apply academic knowledge.
- ✚ Students will use appropriate strategies to extend their communicative competence.
- ✚ Students in this class will be expected to demonstrate increasing competency in English language skills in the areas of speaking, listening, reading, and writing, including the application of grammatical conventions.

Standards: *We have five **WIDA** standards and the four domains of speaking, listening, reading, and writing are embedded in each of these:*

Standard 1: Social & Instructional Language

Standard 2: The language of Language Arts

Standard 3: The language of Mathematics

Standard 4: The language of Science

Standard 5: The language of Social Studies.
